No Baseball Pools Here Says Mayor

The order of Gov. Vic Donahey banning the sale of all baseball pools and other gambling on baseball games as well as punch boards and slot machines will cause no work for Salem police.

It will have no effect in Salem because of the fact that the city is free from the things banned by the order, according to Mayor John W. Post.

Police have not been bothered by baseball pool sellers in Salem for a number of years, it was reported.

Punch boards and slot machines have been taboo here since the raids made by prohibition agents last November.

CHINESE BANDITS PRESENT KNOTTY PROBLEM TO U. S.

Cabinet Discusses Crisis, Loath To Deal Directly With Bandits.

Washington, May 25.—The United States government is partly up against it in endeavoring to deal with the serious Chinese situation arising out of the capture and imprisonment of five Americans by Shantung train bandits.

This was candidly admitted today by members of the cabinet as they met again at the White House to consider American policies.

But three avenues of action are open to this and foreign governments in handling the situation, it was said by one member of the cabinet. They are:

1.—Deal with the bandits directly, ignoring the weak and tottering Chinese government.

2.—Employ the use of foreign troops in a punitive expedition to release the prisoners and chastise the bandits.

3.—Compel the present government at Peking to produce the prisoners and pay indemnities for losses and injuries suffered.

The administration is extremely loath to deal with the bandits directly, although this course will ultimately have to be followed, it was said. To deal with the outlaws, however, will doubtless lead other bandit gangs to similar kidnappings of foreign residents, and before long it is felt that the United States government would be having to deal with a succession of gangs in China instead of with the foreign government.

Similarly President Harding and Secretary of State Hughes are extremely hesitant to employ troops in a forceful attempt at liberating the prisoners. Not only would the use of troops involve a considerable army movement at great expense but it would also be likely to promote anti-foreign feelings among the Chinese masses, similar to that which flared up in the Boxer uprising 20 years ago.

MAYOR POST FILES PAPERS FOR THIRD TERM CANDIDACY

Mayor First To Place His Name In Primary Race Next August.

PETITIONS MUST BE FILED BY JUNE 7

Complete Municipal Ticket Will Be Nominated At The Primaries.

Mayor John W. Post is a candidate for re-election at the Republican primaries on Aug. 7.

This announcement was made Friday morning by Mayor Post and follows the filing for his declaration of candidacy with the county election board.

Mayor Post is seeking election to the office as chief executive of the city for a third term. He is now serving his second term of office, defeating Dr. J. S. Gallagher, Democrat at the 1921 election.

His is the first announcement of candidacy for any office at the municipal election in November. The political pot is expected to begin to boil as the result of the mayor's declaration.

Candidates for municipal offices at the November election have until June 7 to file their declarations with the county election board.

Candidates in two other towns of the county have filed declarations with the election board. Mayor Albert W. Ferren of East Palestine has formally announced himself as a candidate for a second term and three nominees have announced themselves in the race for the mayoralty nomination at East Liverpool.

Expect Last Minute Rush

Despite requests made to Gov. Donahay for the removal of Mayor Post, the governor failed to take such action. He ordered the dismissal of Chief of Police T. W. Thompson instead and the police head was immediately reinstated by the civil service commission when no charges were filed against him.

Removal of Mayor Post was demanded by members of the citizens committee as the result of numerous raids conducted by state prohibition agents. East Palestine dry enforcement agents and private citizens.

The mayor was called to Columbus for a session with Gov. Donahay and was later instructed to use his own judgment in handling of liquor cases in Salem by State Prohibition Commissioner B. F. McDonald, following conferences between the citizens committee, Mayor Post and the commissioner.

With the date of filing of declarations less than two weeks away, a rush of last minute candidates is expected. A complete municipal ticket is to be nominated at the primary election in August.

EPISCOPAL GUILD HAS CELEBRATION

Harriet Watt Guild Is 33 Years Old; Birthday Program Given.

A profusion of flowers transformed the parish hall of the Church of Our Saviour into a bower of beauty Thursday evening for the annual "birthday" party of the Harriet Watt guild, which is said to have been the nicest party the guild has ever given. It was in charge of a committee composed of Mrs. Ralph Sturgeon, Mrs. C. W. Leeland and Mrs. Gordon Keyes.

Rev. F. S. Eastman, rector of the church, welcomed the guests, following which a history of the guild was read by W. H. Read. The guild was organized in 1890 by Mrs. Watt, wife of the rector of the church at that time. Mrs. Robert Curtis served as its president for about 20 years. Some months ago she resigned this office and Mrs. Alonzo Farmer is the present president. It has over 50 members. Other numbers on the program were:

Vocal solo, Mrs. Milton Probert; reading, Mrs. George Mountford; address, Rev. Frank Albus. Some of the work of the guild was reviewed by Mr. Albus, who complimented it on its accomplishments.

A lunch was served and dancing and cards provided entertainment.

Shot, But Escapes Grave Diggers

Los Angeles, May 25.—Shot three times and seriously wounded, Alexander McCloskey of Lancaster, lay almost helpless in a pile of brush today and watched his assailants dig a grave for him and then by a supreme effort, escaped the vigilance of the grave diggers and crawled to safety at a ranch house a quarter of a mile away.

Several hours later C. H. Converse, 59, of Los Angeles, was arrested near the grave and brought to this city.

McCloskey was rushed to a hospital where surgeons performed an operation. He was said to have little chance for recovery.

WHITFIELD HEADS FOR CHICAGO SAYS MILWAUKEE CHIEF

Passes Through Wisconsin City Early Friday, Says Report.

Chicago, May 25.—Roads leading into this city are being guarded today by policemen armed to the teeth following the receipt of a tip from Chief of Police Laubheimer of Milwaukee that John Whitfield, alleged slayer of a Cleveland police officer, passed through Milwaukee early in the morning, headed for Chicago.

Cleveland, May 25. Belief that John L. Whitfield, kidnaper and slayer of Patrolman Dennis Griffin, was headed through the wilds of northern Wisconsin and Minnesota for a dash for freedom into Canada, was expressed at Prosecuting Attorney Edward C. Starnes' office here today, following telephone communication with Assistant Prosecutor Henry J. Williams who is directing the search for the negro wanted for murder.

Wisconsin authorities are extending every aid in the search for Whitfield, whose sensational escape from the law's net here on May 11—two weeks ago today—was followed by a spectacular drive in the well advertised Jordan roadster, slightly discolored but bearing the same Ohio license number through three states and a still more sensational escape from the hands of two officers at Madison, Wis., Tuesday night.

Every road to the east near Lake Michigan; to the south towards Minnesota; to the south towards Illinois is being watched and guarded by armed men, while all points of possible entry into Canada on the north are also being closely guarded.

Failure to properly placard nearby states with pictures and descriptions of the fugitives was said by officials here to be probably the cause of his success in eluding officers of the law.

CULTIVATOR PLANT GOES TO LEETONIA

Acme Company Will Occupy Crescent Machine Co. Plant There.

Removal of the plant of the Acme Cultivator company from Salem to Leetonia was announced Friday by officials of the company.

The company, engaged in the manufacture of light power tractors for agricultural purposes, was organized by a group of Salem men and has been in business here during the past three years.

Lack of room and inability to secure proper facilities in Salem are given as the reasons for the new location of the plant. A fund of \$20,000 is being raised by Leetonia residents to secure the factory there. They will occupy the building formerly used by the Crescent Machine company, a three-story building. Members of the Leetonia Business Men's club are backing the removal of the plant to their city.

The investigating committee of the Business Men's club reported that the balance sheet of the company's business shows a net profit of more than \$4,000 for the first quarter of this year.

Working with a small capital, the company was started in Salem and the first machines were manufactured in a barn. A large amount of stock in the company is owned by Salem residents.

Open Railroad Rate Protest Conference

Chicago, May 25.—Senators, congressmen, governors, mayors, heads of railroad labor and farm organizations, with a sprinkling of ordinary folks, met here today in a conference presided over by Senator Robert M. La Follette of Wisconsin for the purpose of organizing the public interest before the Interstate Commerce commission to fight excessive transportation rates, based, it is said, on fictitious valuations. The conference grew out of a move started by the Progressive group on transportation in congress, which asserts that the people will be mulcted of \$500,000,000 annually if the public's interest is not adequately represented at the coming valuation of the roads, in accordance with a senate resolution.

Wayne Rafferty, aged eight, of Sebring, is dead as the result of Salem's first automobile tragedy of the year which occurred shortly before 5:30 p. m. Thursday when the lad was struck by an automobile driven by Miss Frances Probert of Seventh st.

The lad was knocked to the ground by the fender of the car, both front and rear wheels, on the right side of the car passing over his body.

When "he" was calling on "her" and happened to stay
or Sunday evening tea, he ALWAYS marched right out to
the kitchen and wiped the dishes.

She thought he liked to wipe dishes, and had visions of his
helping her every night, with an apron tied around his col-
lar—so funny!

But alas! Night after night he was "too tired." And besides,
it wasn't "a man's work." Neither was it woman's work,
the bride determined.

And so for her first married birthday she took an electric
dishwasher instead of a fox scarf. But to brides-yet-to-be
she suggests getting the dishwasher FIRST. As important
as a range or a kitchen cabinet.

A new model dishwasher just
arrived! Come in and see it.

CAR JUMPS TRACK ON BEAVER BRIDGE

Lisbon, May 25.—Much excitement and considerable delay was caused yesterday afternoon about 3:30 o'clock when a large steel box car jumped the tracks on the bridge over Beaver creek.

The car was attached to a freight train which was shifting coal from the main track of the Y. & O. to the Erie track. After leaving the rails the car became caught in part of the steel work of the bridge and nearly three hours passed before it was removed from its dangerous position.

After uncoupling the runaway car from the rest of the train, members of the wrecking crew placed a cable around the car and with the aid of the freight engine placed it on the tracks. For a time it was feared that the bridge would be swept from its foundation by the weight of the car.

Passengers traveling from Salem to East Liverpool were required to transfer to other cars waiting at the bridge.

SOCIETY

Smith-Fisher

Miss Grace Elizabeth Smith, this city, and William Charles Fisher, Youngstown, were the principals in a beautifully appointed wedding at noon Thursday at the home of the bride's parents, Mr. and Mrs. W. D. Smith, Ellsworth ave.

During the ceremony the bridal party stood under a lovely arch of smilax and ferns, from which was suspended a bell made of white carnations. Palms added attractiveness to the scene.

The bride was gowned in a pretty creation of white canton crepe and carried a bouquet of white roses. The only ornament she wore was her grandmother's brooch, which is 70 years old. Her maid of honor, Lucinda M. Smith, Barnesville, a cousin, wore a white crepe de chine dress and carried pink roses. Horace Nichol, Pittsburgh, was best man. Rev. Charles Stunker, Hickory, Pa., read the service and the young people were pronounced man and wife by Rev. Mr. MacDonald, Youngstown. The ring ceremony was used. Mrs. Ralph Smith, Youngstown, sister-in-law of the bride, played the wedding march.

A two-course wedding dinner was served to about 60 guests, relatives and friends. Pink and white roses formed the centerpiece on the bride's table. Flowers were used to decorate other tables.

Mrs. Fisher, daughter of Mr. and Mrs. W. D. Smith, Ellsworth ave., is well known in this city. Mr. Fisher, a son of Mrs. Martha Fisher, Youngstown, is a public accountant employed in Youngstown, where the couple will make their home after a honeymoon trip.

Among the guests at the wedding were Mary Cowperthwaite, Hoddenfield, N. J.; Dr. Elder and family, Mrs. Martha Fisher and Ralph Smith and family, Youngstown, and Rev. Charles Stunker and family, Hickory, Pa. Others were from Barnesville and this vicinity.

After a honeymoon trip it is understood Mr. and Mrs. Theiss will reside in Detroit.

EXAMINER ACCUSES GARAGE OFFICIALS

Columbus, May 25.—Seething criticism of officials and employees of the highway department charged with the care of millions of dollars worth of excess war materials turned over to the department by the federal government and findings totalling \$14,318.96, are contained in the report of an examination of the state highway garage, located in the state fair grounds, submitted to State Auditor Tracy today by Examiner John A. Bliss. The report covers the period from Jan. 1, 1918 to Jan. 1, 1923.

That "the officers and employees of the highway department charged with the care of this property were grossly negligent, if not criminal, in the care and disposition of said property" that "much of the property has disappeared through theft, gift or sale for which no accounting has been made," that "many of the employees of the state highway garage benefited by receiving state property through gift or otherwise," that "the management of the state highway garage has been very lax, unbusinesslike, inefficient and extravagant" and that "much of the property which was serviceable was sold, contrary to federal and state law," are allegations contained in Examiner Bliss' report.

FRENCH CABINET CRISIS IS ENDED

Paris, May 25.—Although the cabinet crisis, resulting in the temporary resignation of the Poincare ministry was a closed incident today some anxiety was felt that the matter might give encouragement to the German Communists, who are on the warpath in the Ruhr.

The trouble arose over the refusal of the French to try Marcel Cachin, Communist deputy and others charged with plotting against the safety of the republic by their anti-French activities in the Ruhr last winter. It is understood however, that the government will now seek other means to bring the accused reds to trial.

Newspapers supporting Premier Poincare chided the senate and praised the premier for his prompt action. They commended President Mitherrand for refusing to accept the resignations.

Now We Know Why
People Have

Sore Feet

All in the Joints Says
Maine Doctor

"With the tools we mortals use."
All these years we have been trying to help thousands of footsore people by bathing and powdering the skin when all the time the real trouble is in the bones, ligaments and cartilage.

Or, to be short, in the joints. There are 26 bones in the foot covered with cartilage and connected with ligaments and they have a tremendous amount of work to do.

The slightest strain on one little ligament from being "on the feet" too much inflames the whole foot, causing soreness and burning, aching and general misery.

"All this can be quickly proved," says a prominent Maine doctor whose name is known the world over.

Just try a remedy that compounded for joint troubles only—such as Joint-Ease, which every druggist carries, and see how quickly your sore, tired, inflamed and tortured feet will get well and strong and sturdy again. Forget your powdering and soaking and other makeshifts for just a few days and get rid of all foot misery by using Joint-Ease.

It's a stainless preparation that you rub on your fingers for about a minute and it soaks right in through skin and flesh away down to the joints—the real seat of all troubles. And remember when Joint-Ease goes in all foot agony gets out—A tube for 60 cents—Every drug store, J. H. Lease Drug Co., Floding's drug store, and Bolger & French can supply you.

BRINGING UP FATHER

LANDMARKS THAT MAKE CITY

Occasionally Townsman Don't Realize Just What Has Been the Attraction That Brings Visitors.

No town finds out how many shrines and landmarks it has until some one installs a rubberneck wagon. It ought to be quite a revelation for many of its inhabitants to ride about in the sight-seeing vehicles of their own town; sometimes, as instructive as visiting the museums of local historical societies.

Visitors in their expressed desire for the local sights, always betray unerringly what the city is most famed for. It doesn't much matter what is most important to the tourist.

Salem, Mass., has long since discovered that the shadow of the witches is "over it all," and has resignedly erected billboards at its main gateways welcoming the motorists to "The Witch City," and Fredericktown, Md., although maintaining stoutly the flimsiness of the Barbara Frietsche legend, is willing to humor the visitors about it.

Whatever makes a town noted abroad, it is best to make the most of, for the world will have it so. "Sights" are what popular imagination or association make such, and nobody discovers this with greater swiftness than the genial guide who dally narrates to eager listeners all the facts and traditions he can gather about them.—St. Louis Globe Democrat.

SEBRING BOY KILLED

(Continued from first page.)

slowed up her car for the crossing at East High st and had sounded the horn several times. When just a few feet past the intersection, she stated she saw the boy directly in the path of the machine and attempted to swerve the car in a vain attempt to avoid hitting him.

The right front fender of the car knocked the boy to the ground, Miss Probert declared that she was driving at a moderate rate of speed and that she had her foot on the brake pedal at the time. Witnesses of the tragedy declared that the boy was not thrown any distance by the car.

Miss Probert Collapses

After taking the boy to the hospital Miss Probert collapsed. She was reported in an extremely nervous condition Friday as a result of shock. Miss Probert is a teacher in the Salem public schools.

Members of the police department are investigating the accident. The father of the boy is well known throughout the county for his ability as a baseball player. He has been in ill health for some time. The lad's sister Doris is said to be in a serious condition in a Cleveland hospital. Unable to continue his trip to Mt. Clemens, the father was brought to Salem by relatives Friday morning.

In addition to his parents the boy is survived by two brothers, Jack and Dale, one sister, Doris, and the following aunts in Salem, Mrs. Thomas

McGowan, Mrs. Wallace Sheehan, Mrs. Frank Apple, Mrs. Roland Zimmerman and one uncle, J. G. Smith. Funeral arrangements have not been completed.

Claims Cancer Takes
90,000 Lives In Year

New York, May 25.—Cancer claimed 90,000 victims in the United States last year and 180,000 more will die within the next two years, all of whom might have been saved, or at least had the course of their disease mitigated by prompt diagnosis and expert treatment, according to Dr. Francis Carter Wood of the Crocker Cancer Research laboratory, who addressed the state medical society.

The relief of cancer, he said, must come first from awakening of the public to the dangers of the disease by means of the publicity work of the American Society of the Control of Cancer.

Then, Dr. Wood said, family physicians must make early diagnosis and submit their cases immediately to competent surgeons who, in their turn must do all in their power by operating.

Dr. Wood pointed out that dieting cannot influence the course of cancer and that only operating or radiotherapy can do so.

Has Grandfather's Marriage License Issued In 1793

Land deeds bearing signatures of Presidents Thomas Jefferson and James Monroe and a marriage license issued to Moses Votaw on Sept. 4, 1793, are in the possession of Curt's Votaw of 64 East High st., aged 75, who claims to be the oldest living Votaw in Ohio.

The marriage license was issued to Moses Votaw and Mary Brown and bears the signatures of 50 witnesses. Moses Votaw was the grandfather of Curtis Votaw. Mr. Votaw has also a marriage license issued to William Kennett and Martha Mendenhall in 1808.

The land deed bearing the signature of President James Monroe was issued to Moses Votaw on Jan. 27, 1819. It was for a section of land in the southern part of the state sold at auction at Steubenville by an act of congress.

A copy of the deed follows: "JAMES MONROE, President of the United States of America, To all to whom these presents shall come, greeting:

"KNOW YE, That Moses Votaw, of Columbiana county, Ohio, having deposited in the general land office a certificate of the register of the land office at Steubenville whereby it appears that full payment has been made for the south half of section seven, in township fifteen of range five of the lands directed to be sold at Steubenville by the act of congress, entitled 'An act providing for the sale of the lands of the United States, in the territory north west of the Ohio, and above the mouth of Kentucky river,' and of the acts amendatory of the same, there is granted, by the United States, unto the said Moses Votaw, the half lot or section of land above described; To have and to hold the said half lot or section of land with the appurtenances unto the said Moses Votaw, his heirs and assigns forever.

"In testimony whereof, I have caused these letters to be made patent and the seal of the general land office to be hereunto affixed.

"Given under my hand at the City

of Washington, the twenty-seventh day of January in the year of our Lord one thousand eight hundred and nineteen and of the independence of the United States of America the forty-third.

"By the president, James Monroe." This deed is written on parchment and is remarkably well preserved. The other deed is similar in its wording being made out to Emanuel Dixon of Columbiana county.

Russian Refugees Aboard Their Ark Sail For America

Olango, P. I., May 25. — Probably the most heterogeneous collection of humanity ever embarked for a trans-Pacific voyage made their way aboard the U. S. army transport Merritt which

will be their "ark" to carry them to America—their promised land.

They are the 555 remaining souls of the band of 8,000 that fled red Russia last winter with Admiral Stark on the famous "white" fleet.

The tropical heat nearly brought serious complications to the proposed voyage of the refugees to the state. An hour and a half after the Merritt left Manila for Olango to pick up the main body of refugees, the Russian stokers keeled over and the remainder of the Russian engine room crew quit exhausted. A hasty roll call among the 100 refugees aboard secured enough volunteers to stoke the engines for the balance of the voyage.

When the Merritt sails today, Admiral Stark, leader of the gallant little band, will be left behind with sufficient men to guard the "white fleet" on which the refugees made their voyage here and which represents largely their "capital." Enough money remained in the gold boxes of the refugees for Admiral Stark to pay the

ten-dollar gold immigration fee for each refugee.

The refugees came aboard singing and laughing, elated over the prospects of finally finding a safe haven

of refuge in America. They are extremely grateful to the people of the United States for allowing their entry. off.

A great shortage of toys is reported. READ THE WANT COLUMN.

Another City Official Praises Tanlac For His Restoration

HARRY C. HANEY

Harry C. Haney, 1207 Parrish st., Philadelphia, an inspector in the city department of public safety for the past nineteen years, is one of the thousands who have become aware of the remarkable powers of the Tanlac treatment. He says:

"I wouldn't think of being without a bottle of Tanlac in the house. For eight years I suffered continually from severe attacks of acute indigestion. I spent money and spent money trying to get relief but with no results."

"Even my first dose of Tanlac seemed to soothe my stomach, and now I can enjoy the heartiest meal with no fear of after troubles. My appetite and digestion are so good I've gained fifteen pounds and feel well in every way. If anyone wants to know more about my case, I shall be glad for them to call on me."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

How to Get Better Milk Prices

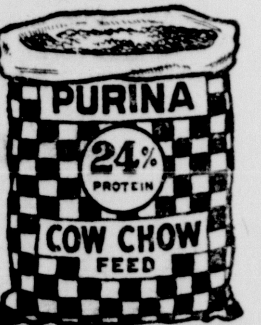

Now is the time to feed a real milk producing ration.

By raising the average of your winter milk deliveries with Cow Chow during the winter months you can expect better prices, and more milk accepted in the spring and summer.

The dairy farmer who brings in twenty gallons a day in the winter and then tries to deliver 40 gallons in the summer, gets the regular price for only 20 gallons, and the surplus price for the other twenty.

The dairy farmer who has a big fall and winter production establishes a high average for himself and gets a good price in the spring and summer on grass for as much milk as he made last fall.

Cow Chow now means more winter milk and more summer income.

HARDING CALLING IN BEST MINDS TO PREPARE SPEECHES

President Will Answer All Criticisms On His Trip West Next Month.

Washington, May 25. — President Harding is again calling in the "best minds" in the Republican party. He is enlisting their aid and thought in the preparation of the numerous speeches which will dot his 15,000 mile trail from Washington to Porto Rico, via Alaska, this summer.

For ten days past, prominent Republicans have been dropping in at the White House for chats with the president. Sometimes their visits have been heralded, but more often they have just "happened in" casually as Elihu Root and ex-Governor Frank O. Lowden of Illinois, both explained.

Most of the "best minds" that have been in contact with Mr. Harding up to date have been of that variety that is committed to the world court, and it is understood they have given the president much valuable ammunition for use in his summer campaign of answering administration critics. None of the so-called "irreconcilables," have been called in to date.

In the preparation of his court speeches, the president is consulting only a few men outside his immediate official family. (The suggestions of Secretary of State Hughes and Secretary of Commerce Herbert Hoover, the original proponents of the court scheme in the cabinet, are always available. In addition he had called in Col. George Harvey, Elihu Root and Frank O. Lowden.

Will Answer All Criticisms

Those who have talked with the president about his trip asserted today that by the time he reaches San Juan, late in August, he will have answered all of the criticisms that have been leveled at his administration policies — from foreign affairs to railroads and the tariff.

A few weeks ago, the president informed callers that he planned to make only one major speech on the world court on his journey. This plan has now been abandoned. It was learned today, and it is likely that Mr. Harding will present his world court and international views in the course of several major addresses. These will come in "enemy territory" — where opposition to the court is pronounced, as in Missouri, the home of Senator Jim Reed; in Idaho, the home of Senator William E. Borah; and possibly in Southern California, the stronghold of Senator Hiram Hiram Johnson.

These three senators form the backbone of the irreconcilable contingent, and the president's political advisers believe it good strategy to carry the fight into their home grounds.

Plans for the long trip were so far completed today that railroad officials were called in for consultation as to time schedules. After days of poring over the map and consulting advisers, it has finally been decided that the president will make eight major speeches enroute to the Pacific coast, starting in at St. Louis June 21.

Trip To Alaska

The schedule-makers have allowed 20 days for the president to make his visit to Alaska. Enroute north a day's stop will be made at Vancouver, B. C. The Canadians are understood to be laying plans for one of the greatest receptions to President Harding ever accorded anyone. Mr. Harding will be the first American president ever to visit Vancouver.

Upon his return from Alaska, the president will make speeches at either Seattle or Portland, San Francisco, Los Angeles and San Diego, from which latter place he will sail for Porto Rico, via the Canal.

Only a brief stop is planned at Panama, according to present plans, but a stay of several days will be made at Porto Rico.

The president's advisers believe that his visit there will do much to allay the resentment against American administration that became so violent during the governorship of E. Mont Riley.

Trace Many Ills To Posture Required In Women's Work

The effect on the physique and on the health of industrial workers of the monotonous and rapid repetition hour after hour and month after month of movements in themselves light and simple has recently begun to challenge the attention of the medical profession. Especially has it done this since this work, so characteristic of modern industry, has been more and more monopolized, unusually on a piece basis, by women whose deftness and swiftness have enabled them to take possession of occupations which did not require much muscular strength.

So far, although conclusive proof is lacking, the weight of opinion seems to be that serious injury may be caused by any work the performance of which requires cramped, constrained, or awkward posture. Less general and less positive is the opinion as to the effect of the work on the nervous systems, especially in women.

Work that requires bent shoulders and drooping of the head compresses the chest and interferes with the breathing, and this alone leads to many ill. It also forces the ribs and all that they enclose down upon the abdomen and tends to displace its organs. Among other results this pressure causes a "folding in" of the wall of the abdomen along the belt line and the partial stoppage of material moving through the intestines and this leads to constipation, diarrhea, nervousness, abnormal fatigue and headaches.

Work that requires a sideways "slouch" crowds the ribs between a low shoulder and a high hip on one side and expends them on the other side, interfering with the breathing and paving the way for tuberculosis. In girls and women this slouch also tends to displace other important organs.

Such results may be prevented or lessened by change of work; for instance a change from work that requires stooping forward to work that requires reaching upward, or that requires a sideways slouch, or that requires no particular attitude. Such a change naturally involves a loss in speed, which for a time may cause serious money loss to a piece worker, but, especially in young girls, it will help to prevent ill health and possibly deformity.

Proper chairs are also helpful. For instance, as sitting all day at one's work is probably nearly as bad as standing all day, a combination of chair and desk (or work bench) whose relative height would permit one to work with equal ease whether standing or sitting may be advantageous. Many types of "proper" chairs have been designed, but, naturally, few or none of them seem to be fitted to all types of work. Certain factors seem, however, to be advisable in all chairs. All chairs, for instance, that are too high to permit the occupant's feet to rest firmly on the floor, should be provided with a foot rest that would prevent the lower part of the legs from dangling and the upper part (thighs) from pressing against the edge of the chair; practically, this means that women should not be called upon to use chairs built for men. Rests for the back are also extremely helpful in lessening fatigue.

That the constant repetition of a movement does in time affect the nervous system is more than probable, but how importantly it affects it has not been established. Anderson, for instance, states that girl after girl in a cigarette packing factory was found when off duty to be constantly repeating the motions she made while at work and insists that such tendencies should be investigated.

The best preventives so far suggested seem to be the daily utilization of the forenoon and afternoon rest periods now in vogue in most factories either in complete rest or in exercising muscles not used in working time. When combined with periodic changes in occupation that call for changes in the muscles used such utilization should give effective help in preventing serious troubles.

Great Falls Wants Dempsey-Wills Go

Champ's Manager Considers Offer Seriously, He Announces.

Shelby, Mont., May 25. — Negotiations looking to the staging of a match between Jack Dempsey, world's heavyweight champion, and Harry Wills, negro challenger, in Great Falls, are under way here between Jack Kearns, the champion's manager, and Great Falls business men, it was announced today.

Dan Tracy, chairman of the Cascade County Boxing commission and wealthy mining man, is negotiating with Jack Kearns to swing the mixed bout west on Labor day.

"Tracy's offer was for real money just like Shelby put up for the Dempsey-Gibbons July Fourth fight," Kearns explained. "The west has the money and the right spirit to do big things. I see no reason why the Wills match could not be handled successfully in Great Falls and I am considering the offer favorably."

Arrangements for the Dempsey-Gibbons fight here were moving right along. Scaffolding for the west quarter section of the arena has already been put up. Ticket reservations continue to pour in from all parts of the country. Thirty special trains have already been requested of the Great Northern road.

would comprise a vast army, yet that is the number who have replied to a questionnaire recently sent out by the Lydia E. Pinkham Medicine Co., of Lynn, Mass. Ninety-eight out of every 100 letters from these women contained positive assurances that they have been benefited or restored to health by taking this old-fashioned root and herb medicine. This is most remarkable evidence of its power over the ills of women. Therefore, with 98 chances out of one hundred that Lydia E. Pinkham's Vegetable Compound will overcome such ailments for you, why should you continue to go through life in pain and suffering?

Salem Rubber Co., Salem Ohio.

Dear Sir—We used on our fleet of trucks, 365 Salem Cords in 1922, and showed a nice savings of \$6,000.00 over 1921. During 1921, we were using the so-called standard makes. The writer has paid particular attention to our No. 39, 41, 42 and 43 furniture trucks, which are equipped with 34x5 Salem Super Size Cords.

The tires on trucks Nos. 39 and 42 are showing better than 12,000 miles at this writing, and the tires on the other two trucks have gone over 8,000 miles, and still look good for several thousand miles more. Out of the number of tires we used it was not necessary to return one for adjustment.

Yours very truly,

DR. HUBBARD GIVES LECTURE HERE ON CHRISTIAN SCIENCE

A lecture entitled "Our Divine Inheritance" by Dr. Walton Hubbard, C. S. B. of Los Angeles, given Thursday night in the High school auditorium, interested Salem Scientists and many other friends. Dr. Hubbard is a member of the board of lecturership of the mother church, the First Church of Christ, Scientist, in Boston. His lecture in part follows:

Christian Science is a religion of demonstration of works. It is the law of God, and it was in explanation of this law that Christ Jesus taught, and by the application of this Science that he healed the sick and the suffering. Either his work was according to divine law or it was not. It was either lawful or lawless. As a matter of record, he stated in various forms that his work was according to God's law. He said that he came to do the will of his Father and the will of God is divine law.

It might be asked how it could be possible that earnest men who lived and labored in the Christian ministry during all these years should have overlooked this great Science, and that it should have remained for a gentle New England woman to have discovered it and its rule of operation. It can only be said that had some one else possessed or grown to the spiritual discernment which Paul says is the requirement, such a one would without doubt have made the discovery. The healing and blessings which Christian Scientists experience through the study of this truth fill them with gratitude to Mary Baker Eddy, the Discoverer and Founder of Christian Science.

The church which Mrs. Eddy founded she named the Church of Christ, Scientist; the eternal law of God which she discovered she named Christian Science, and the textbook containing the statement of this law she named "Science and Health, with Key to the Scriptures."

There are no doubt some, who like myself, did not come to Christian Science to be healed of sickness, but who like myself have since had ample proofs of the efficacy of the application of those rules which Mrs. Eddy has laid down in her textbook.

In my own case, when still a med-

ical student, I wondered that the medical profession, admitting as it does that there is a certain mental factor in disease, never made much effort to know more of it. It is true that medical colleges taught and still teach, what is called suggestive therapeutics yet they little realize the effect of human thinking on the body, and the average physician fails to see that his dubious shake of the head, his audibly expressed fears for his patient, together with his silent thought of fear of an unfavorable outcome, are much more potent than the little dose of cheerful suggestion which he generally administers after he has carried out his material measures, and which are statements that he, himself, very seldom believes.

From the moment I started to practice medicine until I stopped the practice, some nine years later, this mental factor in disease was the subject of constant investigation. By the time I had practiced four years, I had reached the conviction that disease is entirely mental and I began to search for the best method of mental healing. I read various books and treatises and compared them, and among them was the Christian Science textbook. At first I was unable to distinguish between them but finally the teaching of Christian Science began to stand out distinctly from the rest and I saw that it differed from the others in that it was not suggestive or psychological practice but the statement of divine law.

But this consciousness did not come all at once, for it was five years from the time when I first glimpsed the truth of Christian Science until I arrived at the point where I could give up the practice of medicine. This was due in part to the fact that the exigencies of a busy practice made non-medical study an impossibility for considerable periods of time, and in part to the fact that I did not once attain the courage necessary to give up a work with which I was familiar and in which I had become well established, for a method of healing with which I had had at that time no personal experience. It is only fair to say that never have I had greater evidence of the guidance and care of divine Love than in this experience of changing from medical practice to the practice of divine healing as taught in Christian Science.

Now Christian Science teaches that man is the manifestation of his Maker. The Bible in the passage declaring that God made man in His image, after His likeness, is stating an inevitable conclusion. God could not make man unlike Himself, and man must express the divine nature and character. The product is always like the source from which it proceeds.

When we examine the various terms which men have used to express their unfolding understanding of God, we find that in these terms there is pictured nothing material, but a God who is infinite Spirit expressing Himself in thoughts; a God who is divine Mind; who gives all to His children. Jesus pictured our divine inheritance when in the parable of the prodigal son the father says, "Son, thou art ever with me, and all that I have is thine." God causes man to reflect His fulness.

What Becomes of Matter? If it be true that God's creation is spiritual, we shall have to dispose of the so-called creations of matter. Christian Science teaches that the material creation is but a manifestation of beliefs that are the opposite of, or counterfeits of divine law. Mrs. Eddy has denominated all that is not of the divine Mind, not of Spirit, not of Truth, as mortal mind, but she points out that mortal mind is only a name which she has given to beliefs which are really not mind, because divine Mind is omnipresent and there is no place for a mind opposed to God.

It is not maintained by Christian Scientists that the material beliefs about man and the universe do not seem real to the human consciousness, but experience has shown that they appear less and less real as we become more and more spiritual in our thinking.

The way in which the divine Mind operates to heal and to save is described by Mrs. Eddy on page 251 of "Science and Health": "The divine Mind makes perfect, acts upon the so-called human mind through truth, leads the human mind to relinquish all error, to find the divine Mind to be the only Mind, and the healer of sin, disease, death."

Having then in some degree laid hold on the fact of the real man's perfection we must prove its truth by applying it. The application of Christian Science is generally spoken of as Christian Science treatment. It is not a formula, but a question of right thinking. When there comes a discordant condition into human thought, we are to turn from it, realizing that because it is discordant, it is not of God. Then we go to the source of all being, to the divine Principle, Love, and recognize that the real man, the only man there is the image of Love, the perfect idea of Mind.

Mrs. Eddy's discovery that all disease is but a mental manifestation led her to recognize that any discordant thought might be a factor in producing it. The most casual observer knows that anger, grief and other emotions frequently produce profound changes in the functions of the body.

Now the purpose of Christian Science is not simply to heal disease but rather to bring about the kingdom or heaven, the reign of harmony, through the destruction of all thought that is unlike God.
